➤ Instruction

1. Strip the sheath about 40mm
2. Arrange the insulation wire to IDC slots according to T568A/B wiring scheme

TIA568A	White/Blue	Blue	White/Green	Green	White/Orange	Orange	White/Brown	Brown
TIA568B	White/Blue	Blue	White/Orange	Orange	White/Green	Green	White/Brown	Brown

3. Terminate the cable and cut the insulation wire by 1-pin IDC punch tool
4. Check the wiring scheme and the cable termination

* Caution

- Do not make untwisted length more than 12.7mm for performance such as cross talk
- Always use 1-pin tools and do not use multi-pin tools such as 8-pin type
- Use only 1-pin tool or nipper for cutting excess wires of IDC blocks (knife X)
- Make sure that the radius of curvature is about 24mm when organizing the cable
